Abstract

This template will assist you in formatting your paper. Please, copy it on your computer and insert the text keeping the format indicated. The various components of your paper [title, text, heads, etc.] are already defined on the style sheet, as illustrated by the portions given in this document. There is a limitation of 6 pages. [Times New Roman, 10-point,normal, upper and lower case and alignment left]

Keywords - Innovation, research projects [Times New Roman, 10, alignment left].

1 SECTION [TIMES NEW ROMAN, 12- POINT, BOLD, UPPER CASE AND ALIGNMENT LEFT]

All the pages of the paper size should be B5 (18,2 x 25,7cm). The top and bottom margin should be 2,5 cm the left and right margin. All the text must be in one column format and Times New Roman must be used, including figures and tables. Single-spaced with 10-point interlining spacing. [Times New Roman, 10 point, normal, alignment justify, upper and lower case]

1.1 Subsection [Times New Roman, 12, bold, alignment left and capitalize the first letter]

The text included in the section or subsection must begin one line after the section or subsection title. Do not use hard tabs, and limit use of hard returns to only one return at the end of a paragraph. Do not number text heads-the template will do that for you.

The template is designed so that author affiliations are not repeated each time for multiple authors of the same affiliation. Please keep your affiliations as succinct as possible (for example, do not differentiate among departments of the same organization).

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. Do not use abbreviations in the title or heads unless they are unavoidable.

Figures, tables and graphics should be centred, numbered and accompanied by a legend. (Fig.1. Legend, Table 1. Legend). Figure captions should be below the figures; table heads should appear above the tables. Insert figures and tables after they are cited in the text. Use the abbreviation "Fig. 1", even at the beginning of a sentence.

Please, do not add any kind of pagination anywhere in the paper. Avoid using headers and footnotes.

The equations should be written with central alignment, with numbering at the right edge, as in

$$h_{ci} = \frac{q}{S(T_{wi} - T_b)} \quad (1)$$

The size of symbols used in formulas is:

- full 10pt
- subscript/superscript 7 pt
- sub-subscript/superscript 5pt
- symbol 14pt
- Sub symbol 12pt

2 CONCLUSION

The paper should be prepared for printing. The paper's original to be printed on a laser jet.
