

ISWiB

SVETSKI OMLADINSKI TALAS
WORLD YOUTH WAVE

WHO ARE WE?

Dear Friends across the Globe,

World Youth Wave (WYW) is organizing festival for university students and youth called International Student Week in Belgrade (ISWiB).

World Youth Wave is youth, non-profit, non-governmental organisation established in 2005 to give chance youth to represent and share ideas, to connect on global level and to fight together against prejudices, racism, xenophobia and homophobia through different cultural and educational activities and by building intercultural bridges among our participants.

WHAT IS ISWIB?

International Student Week in Belgrade is our main project that we started in 2006 and next year, we will be celebrating 10th Anniversary under the moto "Generat10ns celebrating Innovations". ISWiB is a seven-days festival which main topic is non-formal education and youth empowerment through workshops, close communication and cooperation, interactive lectures and various open activities. The previous experience assured us that in this way students are able to gain new knowledge, exchange ideas and to have an opportunity to establish professional contacts with eminent professors and professionals from different sectors and develop and create new projects by themselves.

ACTIVITIES

This year participants were Unwrapping issues such as domestic violence (Unwrap the Walk of Life!)*, youth unemployment by building their own start-ups (Unwrap the Start (Up)!)* or undiscovering the world of antibiotics in the 21st century (Unwrap Antibiotics!)*. Approach we use in creating workshops is: problem, theme, method and final product. Methods that were used in above mentioned workshops are musical for workshop dealing with domestic violence, biotech as lab for the artistic investigation of life system in workshop undiscovering the world of antibiotics and IT as making IT literate individuals capable of creating their own apps and web platforms. More information about workshops : www.iswib.org/workshops.

LEISURE TIME AND ACCOMMODATION

Beside the educational part of the Festival, we provide for participants various intercultural activities such as Flag Parade, Country Faire where they can learn about other countries, even continents as we have participants from more than 50 countries, and taste different cultures. Day at Ada lake in Belgrade is dedicated to building networks between participants in more relaxed environment other than workshops.

Our participants are accommodated in student dormitory "Petar Drapsin" in Kralja Petra 83 Street which was completely renewed in 2009 and, because of its architectural beauty, proclaimed national cultural monument. The dormitory is located in strict city centre so they can explore Belgrade during their free time. 3 meals per day are included.

ISWiB is supported by our valued friends:

РЕПУБЛИКА СРБИЈА
МИНИСТАРСТВО
ОМЛАДИНЕ И
СПОРТА

Министарство просвете,
науке и технолошког развоја

And our partners and friends:

European Movement
Serbia

FAKULTET ZA FIZICKU HEMIJU
Univerzitet u Beogradu
