

Poštovani studenti, profesori i kolege,

Imamo veliko zadovoljstvo da Vas pozovemo na Prvu međunarodnu studentsku konferenciju “Multidisciplinarni pristup savremenim istraživanjima” koji će se održati 25. i 26. novembra 2017. godine u prostorijama Centralnog instituta za konzervaciju, Terazije 26, Beograd.

Konferenciju organizuju “Naučno društvo za razvoj i afirmaciju novih tehnologija” i “Centralni institut za konzervaciju” iz Beograda. Cilj i ideja konferencije je da se nauka i naučni način razmišljanja i rada približe studentima kako bi u budućnosti, kada se zaposle, lakše spojili nauku i privredu. Iz tog razloga, pravo učešća imaju samo studenti osnovnih i master studija, koji će u dogovoru sa svojim profesorima, ili kolegama napisati radove, a sami ih izložiti.

Pozivamo sve profesore da se odazovu pozivu u što većem broju i pomognu realizaciju ovog skupa.

Kotizaciju obezbeđuje organizator.

Konferencija pokriva sledeće teme: mašinstvo, elektrotehniku, građevinu, arhitekturu, heritologiju, ekonomiju, saobraćaj, ali i druge nauke posmatrane sa aspekta istraživanja. Program se sastoji iz oralnih i poster prezentacija. Zvanični jezici su srpski i engleski.

Bilo bi nam veliko zadovoljstvo da Vas ugostimo na konferenciji, molimo Vas da svoje prijave pošaljete do 05.11. 2017. god. na adresu: [sanjapetronic@yahoo.com](mailto:sanjapetronic@yahoo.com) ili [apiona96@gmail.com](mailto:apiona96@gmail.com).

Srdačan pozdrav  
Organizatori

CENTRAL INSTITUTE FOR CONSERVATION, BELGRADE  
SCIENTIFIC ASSOCIATION FOR THE DEVELOPMENT  
AND PROMOTION OF NEW TECHNOLOGIES

Dear students, professors and colleagues,

It is our great pleasure to invite you to the First International Student Scientific Conference "Multidisciplinary Approach to Contemporary Research" to be held on 25 and 26 November 2017 in the premises of the Central Institute for Conservation, Terazije 26, Belgrade.

Scientific Conference is organized by "Scientific Association for the development and promotion of new technologies" and "Central Institute for Conservation" from Belgrade. The aim and idea of the Conference is to make science and scientific way of thinking and working closer to students, as they will be able, in the future, when they are employed, to connect science and economy. For this reason, the right to participate have only undergraduate and master students, who will, with help and monitoring by their teachers and/or colleagues, write and prepare papers and presentations, and present them by themselves.

We invite all teachers to respond to the call in large numbers and help the realization of this event.

Registration fees are provided by the organizer.

Conference covers the following topics: mechanical engineering, electrical engineering, civil engineering, architecture, heritology, economics, traffic and transportation, and other sciences from the aspect of research.

The program consists of oral and poster presentations.

The official languages are Serbian and English.

It would be our pleasure to welcome you at the Conference, please send your enrolment forms, UNTIL 5<sup>th</sup> of November 2017. to the following email address:

[sanjapetronic@yahoo.com](mailto:sanjapetronic@yahoo.com) or [apiona96@gmail.com](mailto:apiona96@gmail.com)

Sincerely,  
Organizers
