

# SEMSIE

Safety Engineering & Management – Science, Industry, Education

## Conference Fee:

The conference fee covers the conference session attendance, conference proceedings, certificate of attendance, refreshments during breaks, light buffet lunch and conference dinner.

- Conference fee for authors from Serbia is 18,000 RSD including VAT.
- Conference fee for foreign authors is 150 EUR including VAT.

The deadline for payment is 1 July 2025.

## Payment Methods

You will be asked to select the method of payment (wire transfer in Serbian dinars or international wire transfer) in the registration form. Upon payment of the conference fee, you will receive a confirmation e-mail containing your official receipt.

## Contact:

## Accommodation & Fees (for SEMSIE participants)

- Single room with breakfast - 10,040 RSD (per night, VAT included)
- Double room with breakfast - 14,380 RSD (per night, VAT included)

The package includes unlimited use of the Wellness & Spa Center

Ministry of Science, Technological Development and Innovation of the Republic of Serbia

## About the Conference:

The Faculty of Occupational Safety, University of Niš, is proud to announce the 21<sup>st</sup> International Conference "Man and Working Environment". The topic of this year's conference is Safety Engineering & Management – Science, Industry, Education (SEMSIE 2025). The Conference will be held on 25 and 26 September 2025 at hotel "Sunce" in Sokobanja. SEMSIE 2025 aims to gather scientists, researchers, and professionals for the purpose of exchanging their knowledge and research results in the field of occupational and environmental safety and sustainable development.

The concept of safety and protection is viewed as directly related to scientific advancements, to their application in industry and economy, and especially to educational policy and its implementation in various segments of the formal and non-formal education system. Creating a safe and healthy environment entails not only education, training, and improvement in the context of lifelong learning, but also creation of a climate that encourages learning, participation, human resource development, and safety-related leadership.

Digital workplaces, the growth of automation and robotization, the diversification of business, work from home, self-employment, and remote and seasonal jobs on the one hand, and violence, harassment, conflicts, drug abuse, stress, and other psychosocial risks affecting the quality of mental and physical well-being on the other hand, pose new risks and impose new requirements in terms of workplace safety and health.

Global issues such as energy, food security, demographic growth, climate change, natural disasters, poverty, etc., have only served to emphasize the importance of interdisciplinary, multidisciplinary, and transdisciplinary research. Changes in the education system should be viewed as a future-oriented process that needs to cover all segments of the education system, particularly the area of professional education of occupational, environmental, and fire safety engineers.

SEMSIE 2025 aims to initiate multidisciplinary research into various issues and problems of occupational and environmental safety, critical thinking about and re-evaluation of existing practices in industry and education, and the projection of innovative safety approaches in occupational and environmental engineering and management.

## Conference Themes:

- SAFETY ENGINEERING AND MANAGEMENT IN SCIENCE
- SAFETY ENGINEERING AND MANAGEMENT IN INDUSTRY
  - OCCUPATIONAL SAFETY ENGINEERING AND MANAGEMENT
  - ENVIRONMENTAL ENGINEERING AND MANAGEMENT
  - FIRE SAFETY ENGINEERING AND MANAGEMENT
  - INDUSTRY 5.0 – A NEW HOLISTIC PLATFORM TOWARDS A SUSTAINABLE FUTURE
- OCCUPATIONAL SAFETY, ENVIRONMENTAL PROTECTION AND FIRE PROTECTION IN NON-MANUFACTURING INDUSTRY
- GREEN ENTREPRENEURSHIP AND ENVIRONMENTALLY RESPONSIBLE BUSINESS
- SAFETY ENGINEERING AND MANAGEMENT IN EDUCATION

## Programme Committee:

**Vesna Nikolić, PhD, Chairperson**

University of Niš  
Faculty of Occupational Safety  
Niš, Serbia

## Organising Committee:

**Evica Jovanović, PhD, Chairperson**

University of Niš  
Faculty of Occupational Safety  
Niš, Serbia

For more details about conference themes, please visit

[www.znrfak.ni.ac.rs/semsie](http://www.znrfak.ni.ac.rs/semsie)

## Conference Co-organisers:

Faculty of Natural and Technical Sciences  
"Goce Delčev" University  
Štip, North Macedonia

Faculty of Engineering  
South-West University "Neofit Rilski"  
Blagoevgrad, Bulgaria

## Important Dates:

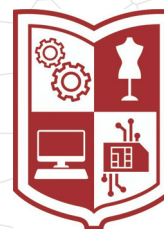

Abstract Submission – 10 March 2025

Abstract Acceptance – 15 March 2025

Full Paper Submission – 5 May 2025

Accepted papers will be assigned DOI identifiers and published in the Conference Proceedings with ISBN.

The conference papers should be submitted in English; however, papers may be presented in English, Serbian and other languages.
