XVII International Mineral Processing And Recycling Conference

Join researchers, engineers, students, and companies at IMPRC 2027 – the XVII International Mineral Processing and Recycling Conference. This event brings together professionals in sustainable development, recycling, and raw materials processing to present new research and share industry advancements. The conference is proudly organized by the University of Belgrade - Technical Faculty in Bor and the Chamber of Commerce and Industry of Serbia.

TIME AND VENUE

IMPRC 2027 will be held from 22-24 April 2027 in Belgrade, at the Chamber of Commerce and Industry of Serbia, 13-15 Resavska Street, Belgrade, Serbia.

PLENARY SPEAKER

Prof. dr Aleksandar N. Nikoloski

Extractive Metallurgy Hub, Harry Butler Institute (Centre for Water Energy and Waste), Murdoch University

From Lithium Production to Battery Recycling: Essential Concepts, Industry Challenges, and Opportunities

CONFERENCE TOPICS

- Material Analysis and Characterization
- Comminution and Classification
- Physical Enrichment – Gravity, Magnetic and Electrostatic Separation
- Flotation and Surface Chemistry Processes, Flotation reagents, Flotation technology
- Leaching and Solutions Processing
- Mineral Processing of Complex Ores
- Coal Processing
- Dewatering and Agglomeration
- Sustainability in Mineral Processing
- Decarbonisation Technologies in Mineral Processing
- Waste Generation and Analysis
- Recycling and Utilization of Industrial Waste
- Recycling of Bio-waste
- Treatment of Waste (mechanical, biological, chemical, thermal, other)
- Environmental Engineering
- Waste and Resource Management
- Renewable Energies
- Energy Efficiency and Sustainable Development
- Plant and Process Design
- Simulation, Modeling and Process Control
- Legislation Aspects on Mineral Processing, Environmental Protection and Waste Management
- Education in Mineral Processing, Recycling, Environmental Protection and Other Related Areas
- Integrated engineering in mineral processing and recycling design and operation (Process, Mechanical, Civil, and Electrical Engineering)
- AI applications in mineral processing and recycling technologies: Optimization, automation, and sustainability
- Zero waste strategies in mineral processing and recycling: Design and operation
- Paste and backfill technology in mineral processing and recycling: Design, transport, disposal
- Cement industry in mineral processing and recycling: Alternative fuels and raw materials
- Critical raw materials and recycling technologies for the green transition: Mineral processing and engineering perspectives
- Circular economy and Life Cycle Assessment in mineral processing and recycling
- Other Subjects Regarding Mineral Processing and Recycling
